

Lighting The Future

2018-2019

 **NightSearcher**

For 29 years now NightSearcher has been pushing the boundaries of lighting technology in the quest to design and manufacture the best portable rechargeable LED lighting systems on the market. Our main objective is simple: we want to offer products of unsurpassed quality and renown reliability that utilise the constantly evolving technologies to their fullest potential.

Our diverse range of products is continuously being developed to meet the requirements of our professional customers, including the police, fire & rescue, armed forces, railways, sports clubs, and utility companies, both in the UK and around the world.

We manufacture the most powerful rechargeable LED floodlights and searchlights in the world.

Colin Howard Managing Director

SOCOTEC registered certification to ISO 9001:2015.

All new products are designed to minimise our impact on the environment.

NightSearcher began manufacturing lighting systems in 1989 and have continued producing these from our UK head office in Portsmouth, UK

EcoStar Pro Linkable

Industrial Linkable LED Floodlights

The ECOSTAR Pro 110V linkable is the lighting solution for the industrial, construction market and outdoor events. The extraordinary efficiency and performance over halogen means huge savings in running costs. Fitted with CEE 110V plug and socket allowing multiple lights to be linked together. Linkable versions enable convenient 'daisy chaining' and the LED energy efficiency allows very long cable runs.

KEY FEATURES:

- High powered SMD LED
- Robust Aluminium casing
- Beam Angle: 120°
- Adjustable bracket
- IP65 Weather Proof Rating
- Can operate on power sources between 85V-265V AC 50-60Hz
- Low heat emission = with no cool down required before storage
- Light small or large area
- 0.5 Metre cable
- High performance heat sink

NEW Festoon Lights

AC LED Cable Lights 22 Metres, 110V, 16A

The Festoon LED work lights are ideal AC work lights for Industrial, construction applications. The 110V LED Festoon lighting is energy efficient, saving up to 80% electrical power making them a cost effective lighting solution for indoor and outdoor use.

X10 LED Lamps

22 Metre 2 x 0.75mm
yellow arctic grade
cable with 16A 110V CEE Plug

KEY FEATURES:

- 660 lumens per lamp
- Super bright LED lamps - 10 x 660 lumens per kit
- 22 Metre 2 x 0.75mm yellow arctic grade cable
- Lamp holders spaced every 2 metres
- Multiple festoons can be linked to form a longer light chain via a junction box
- IP65 Rating
- Low heat output - Saves 80% electrical power
- Long life LED lamps rated life of 30,000 hours
- Fitted with 16A 110V CEE Plug

PRODUCT CODE: NSFESTOON22M8W

Optional accessories:

14 Metre extension lead available (110v Only): SPCABLE14M

NEW Gripper light

Gripper Inspection Lamp, 110V CEE or 240V AC BS Plug, 60W

This heavy-duty inspection lamp features a 50mm wide clamp with hand grips and a useful hanging hook for hand free working. Ideal for clamping to joists, scaffolding or under car bonnets etc.

240V AC BS plug
or 110V CEE plug

Pulsar Pro Rechargeable

Emergency Rechargeable LED Hazard Lights

The PULSAR Pro is a multi-mode, rechargeable LED warning light designed for traffic control, signalling, hazard awareness, zone demarcations and vehicle safety. Ideal for professional applications, including the Police, Fire, and Highway Services. These small but robust units are manufactured in shock resistant plastic housing, are waterproof (up to 10 metres) and virtually indestructible (withstanding most vehicle weights if crushed). Built in magnets allow attachment to vehicles or any metal surfaces.

Single Rechargeable Pulsar

SPPULSARMAG

Sequential Rechargeable Pulsar Pro

Set of Five Hazard Warning Lights

This sequential version of Pulsar Pro has the advantage of having a simplified sequential flash operating mode with a raised power button inside the case to activate the sequence instantly for quick deployment. This provides a 'flow' effect of light as each Pod flashes in turn, ideal for use on faster roads where a greater distance is needed between light units.

- Ideal for road side hazards, traffic control, signalling, hazard awareness and vehicle safety. Emergency Responders, Police, Fire and Highway Services.

Run times for light modes:

Single Pulsar-AAA

Hazard Warning Lights

The PULSAR-AAA is a multi-mode LED warning light within a shockproof housing, able to withstand crushing by weights of up to a tonne. These compact lights are designed for hazard awareness or signalling. They are extremely robust & waterproof, as well as being magnetic, so they can be attached to vehicles or other steel surfaces. Capable of operating for up to 25 hours dependant on chosen mode.
