

MM-188-07

## Extended PinBrazing Gun

**SL-87 for S30 X/C PinBrazing units** (Part no. 91061)

**SL-88 for Econect PinBrazing units** (Part no. 91062)

*Patented technique*

The SL-87 and SL-88 is used for connecting cathodic protection cables by PinBrazing technique in drilled holes or holes made with vacuum excavation (Hydrovac). In holes as small as 10" / 250 mm diameter and 8 meters below ground.

The extended Pin Brazing Gun, made of anodized aluminum, is used together with Safetrack's patented electronic Pin Brazing unit, ECONECT or S30X/C.

The brazing gun has the patented S4 technology which ensure correct lift level and best brazing result.

Length of the gun can be extended with up to 5 pcs of 1,5m (5ft) extender rods which gives a length of 8m (26ft).

To simplify the operation in deep holes the complete kit, includes a video camera to connect with a laptop (not included).

Each part can also be purchased individually.

### INCLUDES:

- Brazing Gun P/N 9106110 (S30X/C) 9106111 (Econect)
- 5 pcs of 1,5m (5ft) extension rods P/N 9106115
- Gun Cable set, 9m P/N 92372 (S30X/C) 92376 (Econect)
- Video Camera P/N 591443
- Software for Camera P/N 591444
- USB cable 10m P/N 511446
- Pin holder 8-9,5mm P/N 9211
- Ring holder 8-9,5mm P/N 9202
- Heavy Duty Bag P/N 91063020
- Carrying Case for ext. rods P/N 97249106

### REQUIRED TO RUN, ADD:

- PinBrazing unit Econect P/N 94451 or S30 X/C P/N 9308CPSL
- Wire Brusher P/N 8007040 (220V), 8007045 (110V)
- Special bracket for Wire Brusher P/N 8007048
- Extension rods for Wire Brusher P/N 9106115 (included)

### TECHNICAL SPECIFICATIONS

- Length Up to 8m (26ft)
- Diameter ø14/23cm (5,5/9")
- Max weight 19kg (complete 8m)

*"The most cost efficient way of making retrofit connections to buried pipelines. No need for major excavations!"*

**Heavy Duty carrying bags included!**
