Snap Panzar™

Divisible Subsea Cable Protection

MM-212-01

Secure and durable protection

- Quick and easy installation
- Extremely robust construction
- Versatile
- Compatible weights 18 – 34 kg
- Made from 100% recycled plastic

Snap Panzar™ is developed in close cooperation with experienced installers and is suitable for use in in a wide area of conditions.

For subsea installations, our own weights can be mounted in several ways and the construction will make it possible to fasten Snap Panzar™ in rocks.

Snap Panzar™ is made from the same high quality recycled plastic material as our Protectus™. Thanks to its innovative design the pipes can be installed quickly without any tools, both in subsea applications as well as above water.

Snap Panzar™ will not slip apart thus keeping the cables 100% protected at all times. Snap Panzar™ can be angled 7° which will facilitate and make the installation easy.

	Outer diameter [mm]	Inner diameter [mm]	Length [cm]	Weight [kg]	Pcs per pallet
Panzar 110	110	90	100	4	36
Panzar 160	160	140	100	7	18
