

MM-223-01

## Varnamo Hose/Cable Ramp

Protect your fire hoseline, pipes and cables!

- Designed for 50 tonne, 110 000 lb!
- The hose or cables are fixed to it
- 8 studs fixates ramp to the ground
- Long life

The overrun protection that withstands the highest axle loads! 8 studs on the underside makes it stable on gravel and asphalt roads without damaging the surface. The bridge has been designed for 50 tonne axle pressure, which makes it a standard equipment for emergency vehicles. The bridge channel has a plate that keeps cables and hoses together which avoids them being crushed under the bridge. Common users are rescue services, companies in industries such as mines, forests, power, construction, railways etc.

3" Ø92 mm Dimension: 60 x 60 x 11 cm (24" x 24" x 4"1/3), Weight: 22 kg

● Part no. 59245050

4" Ø115 mm Dimension: 60 x 60 x 13.5 cm (24" x 24" x 5"1/3), Weight: 27 kg

● Part no. 59245055

Can be used to cross railway tracks
